

SP SPORT MAXX GT

APPLICATION

Built directly around innovative Touch Technology, the SP Sport Maxx GT delivers ultimate handling. Its new asymmetric tread ensures precise steering and excellent stability, both at high speeds and around corners. The tyre also keeps you in control with its outstanding road feedback. So, whether you are on a track or just enjoying yourself on the public roads, you will always get the full excitement of your drive.

Feature: Tread compound mixed with racing carbon black
Benefit: Perfect dry grip, excellent braking performance

Feature: Reduced sea to land ratio, especially on the outer shoulder

Benefit: Enhanced grip and steering precision in turns as well as increased contact with the road

Feature: Multi-Radius-Tread (MRT)

Benefit: Outstanding dry and wet handling with more control when cornering due to extremely homogenous pressure deployment in the contact patch

Feature: Three Zero percent layers (JLB) with hybrid overlay-technology

Benefit: Superior high speed stability. Prevents flat spots and enhances even wear. Reduction of circumferential deformation at high speed allowing for the contact patch to remain even.

Tyre Size	Load Index	Speed Index	Run on Flat	Overall Diameter (mm)	Section Width (mm)	Maximum Load (kg)	Maximum Pressure (kPa)	Recommended Rim (J)
